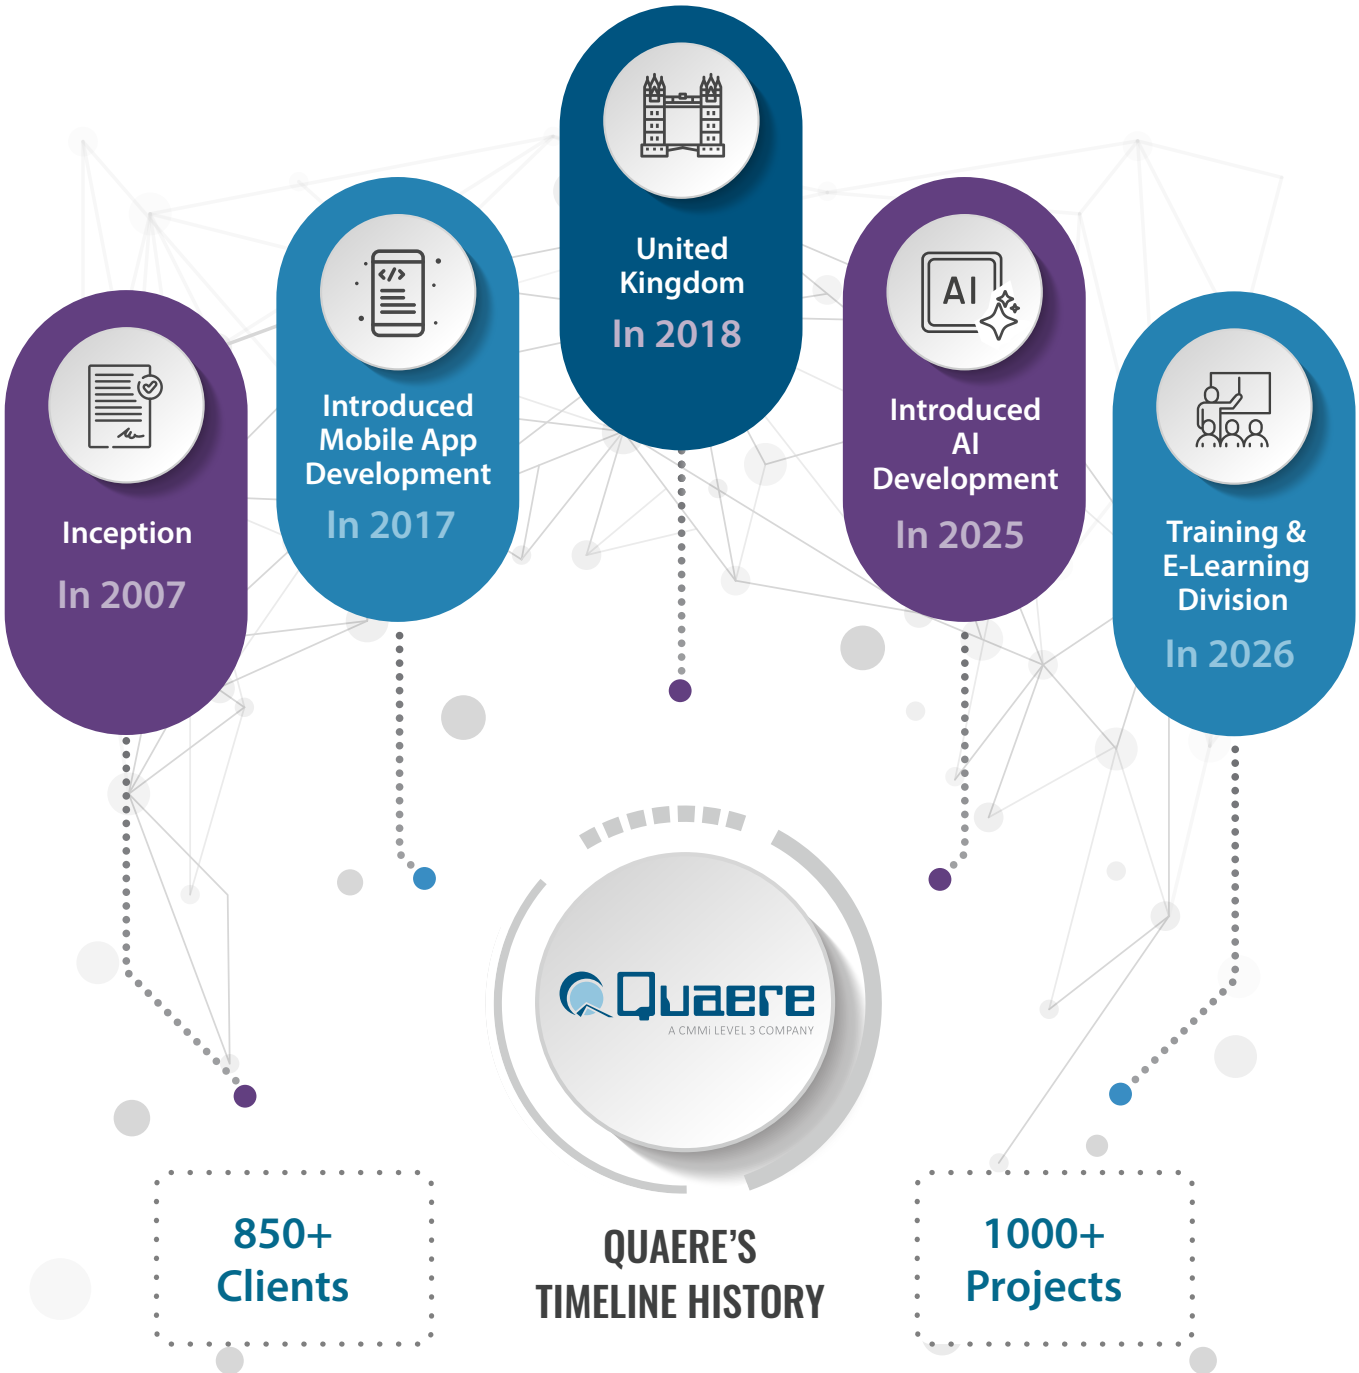
ABOUT QUAERE

19+ Years of Trust | Technology Excellence | Industry-Ready Skill Development.

Quaere Etechnologies Pvt. Ltd. is a leading technology solutions company with 19+ years of industry excellence in software development, digital transformation, e-learning solutions, and enterprise technology services. Since 2007, the company has successfully delivered innovative solutions to corporate, government, and educational sectors across diverse domains.

Expanding its legacy of innovation, Quaere is launching its Training & Skill Development Division in Noida, focused on industry-oriented training, internships, certifications, and corporate upskilling programs. Through expert mentorship, hands-on projects, and industry exposure, the division aims to bridge the gap between academic learning and professional requirements.



OUR DIGNITARIES

Shiv Pal Singh
Founder Director
Quaere Etechnologies Pvt Ltd

Message from the Founder Director

Certified Professional From IIM, Lucknow

Dear Valued Clients, Partners, and Associates,

At Quaere, our journey has always been driven by a simple yet powerful belief: technology should create meaningful impact and help organizations achieve their highest potential. Since our inception, we have remained committed to delivering innovative, reliable, and future-ready digital solutions that empower businesses to thrive in an ever-evolving world.

Today, organizations face unprecedented opportunities and challenges in their digital transformation journey. At Quaere , we combine deep technical expertise, industry knowledge, and a customer-centric approach to develop solutions that not only address current business needs but also prepare our clients for the future. From Artificial Intelligence and enterprise applications to cloud solutions, cybersecurity, and digital transformation services, we continuously strive to deliver excellence in every project we undertake.

Our success is a reflection of the trust our clients place in us, the dedication of our talented team, and our unwavering commitment to quality and innovation. We believe that strong partnerships, continuous learning, and a passion for excellence are the foundations of sustainable growth.

As we look ahead, we remain focused on embracing emerging technologies, creating value for our stakeholders, and contributing to the digital success of businesses across industries. We are excited about the opportunities that lie ahead and look forward to continuing this journey of innovation and growth together.

Thank you for your trust, support, and confidence in Quaere.

Message from the Desk of the
Director

Yashi Asthana
Director
Capacity Building & Strategic Growth
Quaere Etechnologies Pvt Ltd

Dear Academic Leaders, Industry Partners, and Esteemed Stakeholders, Over the past 17 years, I have had the privilege of working across diverse domains including software development, technology consulting, training and skill development, strategic planning, organizational growth, and This journey has provided me with a unique perspective on one of the most critical challenges facing our nation today—the gap between academic learning and industry expectations.

As technology continues to redefine industries and careers at an unprecedented pace, institutions and organizations must evolve beyond conventional approaches. Today's students require more than degrees; they need practical exposure, industry-relevant skills, technological adaptability, professional confidence, and a mindset of continuous learning. Similarly, industries seek talent that can contribute from day one and grow alongside emerging innovations.

At Quaere, we are committed to building a strong bridge between education and industry through technology-driven solutions, capacity-building initiatives, industry-oriented training programs, digital learning platforms, research collaborations, and workforce development strategies. Our vision is not limited to imparting skills; it is to create an ecosystem where knowledge translates into employability, innovation, and sustainable career growth.

Having worked closely with educational institutions, corporate organizations, government projects, and technology teams throughout my professional journey, I strongly believe that meaningful transformation can only be achieved through collaboration. Educational institutions possess the power to shape future talent, while industry brings practical insights and real-world challenges. When both work together, remarkable outcomes become possible.

As Director (Capacity Building & Strategic Growth), my focus is to strengthen these partnerships, create impactful learning opportunities, develop future-ready talent, and contribute towards building a skilled workforce capable of meeting the demands of a rapidly evolving global economy.

I look forward to working together in creating innovative pathways for learning, growth, and professional excellence. At Quaere, we do not merely prepare students for jobs—we prepare them for careers, leadership, and lifelong success.
